Neoplasm - Wikipedia Secondary neoplasm refers to any of a class of cancerous tumor that is either a metastatic offshoot of a primary tumor, or an apparently unrelated tumor that increases in frequency following certain cancer treatments such as chemotherapy or radiotherapy. Survival | Brain tumour (primary) | Cancer Research UK Primary Brain and Central Nervous System Tumors Diagnosed in the United States in 2004-2008 Central Brain Tumor Registry of the United States, 2012 These statistics are for relative survival. Brain Tumor Grades & Types - ABC2 Primary brain tumors are named according to the type of cells or the part of the brain in which they begin. For example, most primary brain tumors begin in glial cells. This type of tumor is called a glioma.

Tumor Grade: Grading Systems & Treatment Options The importance of tumor grade in planning treatment and determining a patient's prognosis is greater for certain types of cancer, such as soft tissue sarcoma, primary brain tumors, and breast and prostate cancer. Brain Tumor: Grades and Prognostic Factors | Cancer.Net These tumors are less likely to grow and spread but are more likely to come back after treatment. Grade III. These tumors are more likely to have rapidly dividing cells but no dead cells. They can grow quickly. Grade IV. In a grade IV tumor, cells in the tumor are actively dividing. In addition, the tumor has blood vessel growth and areas of dead tissue. Adult Primary Liver Cancer Treatment (PDQ®)â€”Patient ... External radiation therapy is used to treat adult primary liver cancer. New types of treatment are being tested in clinical trials. Information about clinical trials is available from the NCI website. Treatment for adult primary liver cancer may cause side effects.

Carcinoma of Unknown Primary Treatment (PDQ®)â€”Patient ... Carcinoma of unknown primary (CUP) is a rare disease in which malignant (cancer) cells are found in the body but the place the cancer began is not known. Sometimes the primary cancer is never found. The signs and symptoms of CUP are different, depending on where the cancer has spread in the body.
